Dispenser with many benefits

- Timeless design
- Robust plastic housings
- Fill level control
- Single-key system
- Integrated spirit level
- Mounting kit included
- Can be filled freely or with suitable material from our range

Elegant washroom dispensers for perfect hygiene.

BLACK & WHITE: a dispenser series with many advantages.

Design

Our new hygiene dispenser line combines timeless design with practical functionality. The timeless design of the Black & White dispenser series is characterized by clean lines and a harmonious color scheme. The matte surface on the front gives the dispensers an elegant look, while the glossy sections on the sides provide a modern touch.

Filling material

In addition to the attractive design and high functionality of our new dispenser line, we have placed particular emphasis on quality, optimal fit and maximum cost-effectiveness in the development of the matching consumables.

For example, in addition to a 2-ply version, we also offer a 1-ply towel roll (ST-77420) with a length of 304 metres. The advantages are obvious: less frequent changing, as one roll is sufficient for over 1,000 drying processes. This not only reduces the carbon footprint, but also saves time and money.

Do your customers prefer high-quality, 3-ply toilet paper, but are annoyed by the constant changing of rolls? No problem! We now also offer our 3-ply toilet paper quality as a jumbo roll (AG-029) with 625 sheets.

If space is limited, we recommend our double roll dispenser. In combination with our 2-ply coreless toilet paper (AG-024), one roll corresponds to four conventional household rolls – a space-saving and practical solution.

With our soap dispensers, we have deliberately decided against an expensive cartridge system. Instead, all models are refillable and can hold up to 1,000 ml of liquid soap or foam soap. This allows for maximum flexibility and cost-effectiveness.

The benefits of our black and white dispensers

Impact-resistant plastic

The robust plastic housing ensures optimal use.

Fill level control - always keep an overview

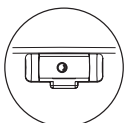

With our dispenser, you always keep an eye on the fill level. The practical viewing window shows you at all times when it's time to refill. This helps to refill in good time and prevents unpleasant surprises.

Schlüssel

Single-key system

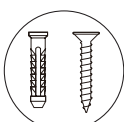

The same key fits most dispensers. Hygiene really is that simple.

Wasserwaage

Spirit level

An integrated spirit level guarantees precise horizontal mounting.

Montageset

Mounting kit

Each dispenser is supplied with a suitable mounting kit, drilling template, and operating instructions, allowing you to install all dispensers quickly and easily.

foam soap

Optimal hygiene & efficiency: 500 ml foam soap dispenser

The 500 ml manual foam soap dispenser is the ideal choice for washrooms with normal traffic. Its main advantage lies in the foam soap itself: with each pump, it produces a rich, creamy foam that gently cleanses the hands.

Disinfectant dispenser 500 ml

Item Nr.: ST-88529 (white) | ST-88559 (black)

Manual disinfectant dispenser with spray nozzle

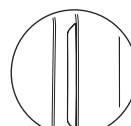

Material: Plastic (matte)
Product size: 219 x 110 x 87 mm
Refill size: 500 ml refill bottle
Suitable for hand and surface disinfectants (toilet seat disinfection)

Lockable with a single-key system. Includes mounting kit.

We recommend from our product range: SC-586 Surface disinfection | SC-686 Hand Disinfectant

Disinfection

spray mist

Suitable as a hand and toilet seat disinfectant dispenser

Hand disinfection: The fine spray mist enables an even and comprehensive distribution of the disinfectant on the hands.

Toilet seat disinfection: With a soaked paper towel, the toilet seat can be wiped and disinfected quickly and effectively.

Intuitive hygiene: With simple operation, both efficient hand disinfection and uncomplicated cleaning of the toilet seat are made possible.

Economical & efficient: With a capacity of 500 ml, the manual pump spray dispenser is very productive and saves costs and refilling time.

Space-saving & safe: Wall mounting saves valuable space and ensures that the dispenser is securely installed – ideal for high-traffic areas.

Air fresheners / Soap, shower gel and shampoo dispensers

Fully automatic fragrance dispenser

Item Nr.: ST-88542 (white) | ST-88572 (black)

Electric fragrance diffuser – batteries not included.

Material: Plastic (matte & glossy)
Product size: 214 x 79 x 68 mm
Refill size: 250 ml refill bottle
 2 AA batteries are required.

We recommend from our product range: ST-88715 | ST-88716 | ST-88717

250 ml

with Lock-System

Shower & Bath Dispenser 350 ml

Item Nr.: ST-88530 (white) | ST-88560 (black)

Manual soap dispenser - can be combined individually, as a pair, and as a triple

Material: Plastic (glossy)
Product size: 214 x 79 x 68 mm
Refill size: 350 ml refill bottle

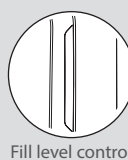

The dispensers can be labeled with a sticker.
 The following stickers are included: Hair, Body, Shower
 Lockable with a single-key system. Includes mounting kit.

We recommend from our product range:

AG-800/801 | AG-850/860 | AG-861

350 ml

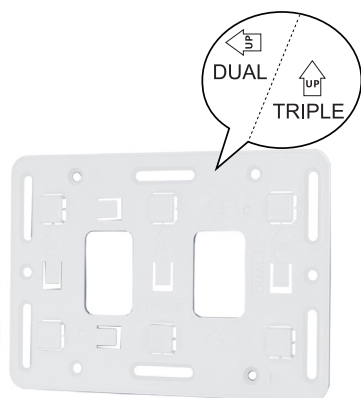

Fill level control

The dispenser is practical for hair & body care products:

With up to three dispensers, this combination is suitable for many different places, such as hotels, schools, clubs, gyms, and hospitals.

You can provide shampoo, shower gel, and conditioner simultaneously.
